

Winter Recess Reminders

Since we are a Link Campus we have specific weather guidelines that we follow for outdoor play. The Link Project follows the wind chill or actual temperature reading of 13 degrees for the minimum outdoor temperature for recess breaks. However, the chart below is used to determine appropriate outdoor time for a fluctuating wind chill. Since each recess is only 15 minutes, we will go outside when the chart is green or yellow. Please dress your children in layers to accommodate the fluctuating temperature that occurs throughout the day.

Wind-Chill Factor Chart (in Fahrenheit)

Air Temperature (F)	Wind Speed in mph								
	0-4	5-9	10-14	15-19	20-24	25-29	30-34	35-39	>40
>40	40	36	34	32	30	29	28	28	27
30-39	30	25	21	19	17	16	15	14	13
20-29	20	13	9	6	4	3	1	0	-1
10-19	10	1	-4	-7	-9	-11	-12	-14	-15
